

# BALTO T1 / R1

Balto by Seneca is a comprehensive security appliance developed in collaboration with Milestone Systems, our fellow security industry leaders. Endorsed and validated by Milestone, in partnership with Dell, Balto by Seneca is a purpose-built solution designed to support the demands of the security system integrator.

This revolutionary new hardware line integrates Milestone's XProtect software as well as Seneca's innovative xConnect remote management and Maestro optimization platforms. Effortless to launch, easy to manage, backed by Seneca's superior customer service and Dell's guarantee, Balto sets the new standard for physical security.

The Balto T1/R1 has advanced performance capabilities utilizing Intel Quick Sync technology. This technology provides more efficient video processing to improve throughput for video recording applications. The appliance combines simplicity and performance at an excellent cost to provide a robust, ready-to-use solution in a mid-tower or 1U rack server.

## KEY FEATURES

- Comes standard with xConnect and Maestro technology
- Three-year global next-day, on-site service warranty
- Up to 32 TB of raw storage
- Ideal for restaurants, retail, convenient stores and small businesses

## THE SENECA DIFFERENCE

### **xCONNECT** *Remote Management Platform*

Seneca's exclusive xConnect platform puts you in control of your security hardware. The xConnect server agent includes Milestone XProtect Event Server integration. Hardware alarms feed into the XProtect system, where Milestone event rules can be created to respond to relevant hardware alarms.

### **maestro** *Optimization realized*

Maestro orchestrates configuration and setup to optimize the Balto solution for Milestone. We channeled years of value engineering into an intuitive dashboard that eliminates hundreds of keystrokes. You don't even need an internet connection or data transfer from external drives.
