

## BALTO C4

Balto by Seneca is a comprehensive security appliance developed in collaboration with Milestone Systems, our fellow security industry leaders. Endorsed and validated by Milestone, in partnership with Dell, Balto by Seneca is a purpose-built solution designed to support the demands of the security system integrator.

Purpose-built to deliver exceptional performance, the Balto C4 is ideal for larger surveillance monitoring solutions that require a higher range of monitors and larger camera counts.

## THE SENECA DIFFERENCE

### **SBAR**

*Seneca Backup and Recovery System*

The Seneca Backup and Recovery Enterprise feature can capture a snapshot of your OS, apps, customizations and settings easily with three clicks, providing the flexibility to restore your systems to a factory image or from a snapshot all in one place.

### KEY FEATURES

- Seneca Backup and Recovery (SBAR)
- Ability to handle up to four monitors for larger viewing solutions
- Intel® Xeon® W-2100 Series Processor for exceptional performance
- Windows 10 IoT designed for building smart things and optimized to power intelligent edge devices
- GPU Accelerated Decode displays more high-resolution streams from a single workstation, as well as enhancing video playback performance
- Ideal for larger surveillance solutions that require control room monitoring
