

SENECA® VFX 9000 WORKSTATION

Big Performance in a Small Package

Big things DO come in small packages. Small, quiet, and inexpensive are not typically synonymous with big performance—enter the Seneca VFX 9000 mini-workstation series. Powered by the 6th generation Intel® Core™ processors, this system offers robust performance and expansion while accommodating a full height, full length, double width workstation class graphics card in a small footprint. Ideal for everything from print and multimedia design to CAD applications, the VFX 9000 is a true creative professional appliance that proves size doesn't always matter.
