

XVIEW CORPORATE

The Seneca Experience puts the integrator first through innovation. We use decades of experience to accommodate our partners from planning and deployment to monitoring and post-sale support.

Purpose-built to deliver exceptional performance, the Seneca xView Corporate series is ideal for larger surveillance monitoring solutions that require a higher range of monitors and larger camera counts.

KEY FEATURES

- Tested, validated and certified with top VMS applications
- Performance tunings optimized for specific VMS
- Seneca Backup and Recovery (SBAR)
- Ability to handle up to eight monitors for larger viewing solutions
- Windows 10 IoT designed for building smart things and optimized to power intelligent edge devices
- GPU Accelerated Decode displays more high-resolution streams from a single workstation and enhances video playback performance
- Ideal for larger surveillance solutions that require control room monitoring

THE SENECA DIFFERENCE

SBAR

Seneca Backup and Recovery System

The new Seneca Backup and Recovery feature can capture a snapshot of your OS, apps, customizations and settings easily with three clicks, providing the flexibility to restore your systems to a factory image or from a snapshot all in one place.
