

## Hiperwall and Seneca's

# Certified Hardware Solutions for Hiperwall Video Wall Software

## Bringing the Pieces Together

### The Program

To simplify the process of choosing the right components for your video wall system, Hiperwall has certified and pre-configured a selection of Seneca computers to work with Hiperwall software.

### Advantages

- Simplicity – A full range of certified, pre-configured computers make selecting the right computers for your video wall easy.
- Reliability – Be assured that each computer is certified to work with Hiperwall software.
- Time saving – Save up to an hour per computer of installation time when building a video wall.

### How to Order

1. Hiperwall will help you determine the correct PC's to order.
2. Contact Paula Gervasoni at 315.218.9123 or email Paula at Paula.Gervasoni@arrow.com
3. Fill out the reseller application and order the hardware.
4. Determine when and where you want the units shipped.
5. Before shipping, the units will be imaged with the Hiperwall software.
6. When you receive the units, your licenses will be activated upon insertion of the USB keys provided by Hiperwall.
7. Contact Hiperwall for installation help.

## The Products

### System for HiperController Application

The main control application for your video wall system.

Comes in both a 1U rack mount or tower option.

CPU: Intel i5-8500 3.0 Ghz. RAM: 8 GB Dual Channel.

GPU: Intel UHD 630. SSD: 250 GB

MSRP: \$1,799

### Systems for HiperView Applications

Powers the video wall's monitors or display devices that show content to the viewer.

Certified HiperView PC's come optimized for standard LCD displays (small form factor), or dvLED displays (2u rack mount).

#### HiperView LCD:

Small Form Factor

CPU: Intel i5-8500T 2.1 Ghz. RAM: 8 GB Dual Channel.

GPU: Intel UHD 630, SSD: 256 GB

MSRP: \$1,499

#### HiperView LED

2u Rack Mount

CPU: Intel i7-8700 3.2 Ghz. RAM: 32 GB Dual Channel.

GPU: Nvidia Quadro RTX 4000 + Sync ii card for hardware gen lock. SSD: 250 GB

MSRP: \$1,699

### Systems HiperSource Family Applications

Delivers live content to the video wall such as desktop capture, IP camera streams, capture card input, web sites or video files. These PC's come optimized for specific

HiperSource applications:

#### HiperSource Streamer:

Seneca certified solutions come in a 2u rack or tower option. Optional 0, 1, 2, 4 and 8 capture inputs are also available.

CPU: Intel i5-8500 3.0 Ghz

RAM: 8 GB Dual Channel

GPU: Nvidia Quadro P2000

SSD: 250 GB

Capture Options: 1, 2, 4 and 8 HDMI inputs via Magewell capture cards

MSRP: \$2,499

#### HiperSource IPStreams/HiperSource Browser:

Available in tower or 1u Rack.

CPU: Intel i7-8700 3.2 Ghz

RAM: 8 GB Dual Channel

GPU: Intel UHD 630

SSD: 250 GB

MSRP: \$2,699
