

MICRO TOWER

## XVIEW BASIC

The Seneca Experience puts the integrator first through innovation. We use decades of experience to accommodate our partners from planning and deployment to monitoring and post-sale support.

The Seneca xView Basic client workstation is designed specifically for small, entry-level security applications. Purpose-built for physical security, the xView Basic offers a low-cost solution that provides the performance required for high-definition video.

## THE SENECA DIFFERENCE

### **SBAR**

*Seneca Backup and Recovery System*

The new Seneca Backup and Recovery feature can capture a snapshot of your OS, apps, customizations and settings easily with three clicks, providing the flexibility to restore your systems to a factory image or from a snapshot all in one place.

### KEY FEATURES

- Tested, validated and certified with top VMS applications
- Seneca Backup and Recovery (SBAR)
- Excellent value for entry-level solutions
- Single and dual monitor options
- Performance-packed for remote monitoring in retail stores, convenience stores, gas stations and small office buildings

— POWERED BY —
